ABOUT ME

Civil Engineering undergraduate at MIST with a strong academic background in structural Engineering and experience with engineering software including AutoCAD, ETABS, SAP2000, MATLAB, MIDAS, and ABAQUS. Seeking an internship opportunity at Forbes Marshall to apply analytical, technical, and teamwork skills in an industrial and engineering environment.

EDUCATION

B.Sc. in Civil Engineering (2022–2026), Military Institute of Science & Technology (MIST)
CGPA: 3.53 | Major: Structural Engineering | Minor: Water Engineering

Internship Experience

24 Engineer Construction Brigade (ECB)

• Observed ongoing civil engineering construction activities through regular site visits.
• Prepared technical reports and documentation related to construction progress and observations.
• Strengthened teamwork, communication, and presentation skills through collaborative assignments and discussions.

Technical Skills

AutoCAD, ETABS, SAP2000, MATLAB, MIDAS, ArcGIS, Microsoft Excel, Word, PowerPoint

Research Experience

Undergraduate Thesis: Influence of Void Geometry on the Thermal Conductivity and Fire Integrity of Hollow Ceramic Blocks: Experimental and Numerical Analysis

Achievements & Activities

• 1st Runner-Up, Buzzer Master Competition, Civil Engineering Fest.
• Volunteer for departmental and organizational events, supporting coordination and management activities.
• Active participant in technical and academic events.

Core Strengths

- Teamwork Leadership
- Time Management
- Presentation Skills
- Quick Learning Ability
- Professional Work Ethic
